

## Truck Care Tips from our Peterbilt Service Managers:

# Will your AC keep you cool this summer?

Nothing will get a truck driver hotter under the collar during summer driving than to have the truck's air-conditioner not working properly.

Our **Peterbilt Service Managers** recommend truckers should have their AC and cooling systems checked now, before the roads and your cab heat up.

Our **Peterbilt Service Centers** are offering these  
“cool” Service Special during May:

**\$30 OFF an Air-Conditioning System Check!**

**\$30 OFF a Cooling System Inspection & Service!**

*Offers expire May 31, 2018*

*Testing the Freon levels and AC compressor operation.*

**Midwest Peterbilt Group**

Contact your preferred MPG Service Center  
for an appointment for your truck.
